

VILLANOVA UNIVERSITY

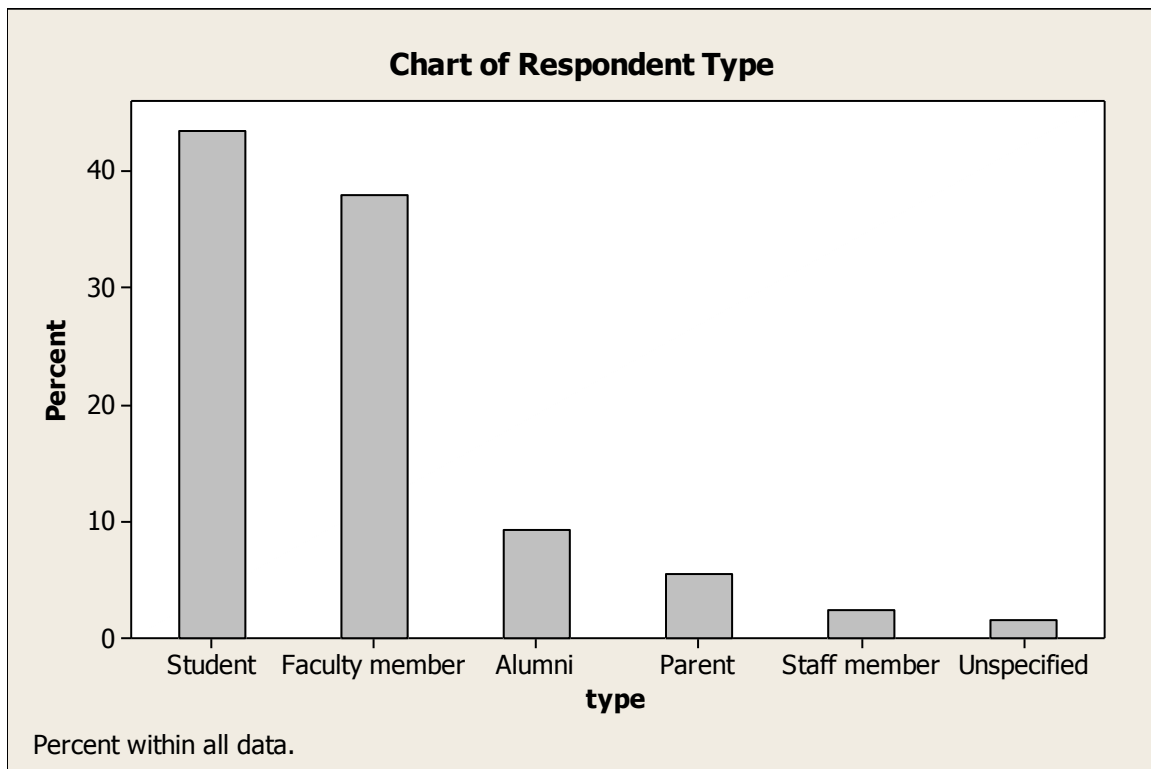

FACULTY CONGRESS

ACADEMIC YEAR 2012-2013

Summary Data of Feedback from the Online Form Related to the Proposed Online B.A.
<http://www1.villanova.edu/villanova/facultycongress/feedback/onlineba.html>
link active 20 March - 3 April 2013

Chart 1: Respondent Type

Summary: Most of the respondents were students and faculty with some alumni and parents and only a few staff members or unspecified.

Wayne Bremser, Mary Ann Cantrell, Lillian Cassel, Sohail Chaudhry, Linda Copel, Joseph Dellapenna, Mark Doorley, Rick Eckstein, Edwin Goff, Judith Hadley, Paul Hanouna, Eric Karson, Sandra Kearney, Christopher Kilby, Julie Klein, Edward Kresch, Kenneth Kroos, Sarvesh Kulkarni, Chad Leahy, Michael Levitan, Maryanne Lieb, Wenhong Luo, Susan Mackey-Kallis, Victoria McWilliams (Chair, on leave), Barbara Ott, Paul Pasles, Salvatore Poeta, Paul Reagan, Bernard Reilly, Louise Russo, Sridhar Santhanam, Donna Shai, Nancy Sharts-Hopko, Gay Strickler, Robert Styer, Mark Sullivan, Fayette Veverka, Catherine Warrick, Thomas Way, Kelly Welch (Vice Chair *pro tem*), Seth Whidden (Chair *pro tem*), Joyce Willens

Chart 2: Most Important Response by Respondent Type (consolidated)

Summary: The biggest issues are brand (by far), integrity, curriculum, and community. By group, students cared most about brand. Faculty cared most about brand, curriculum, and community. Alumni cared most about brand and integrity.

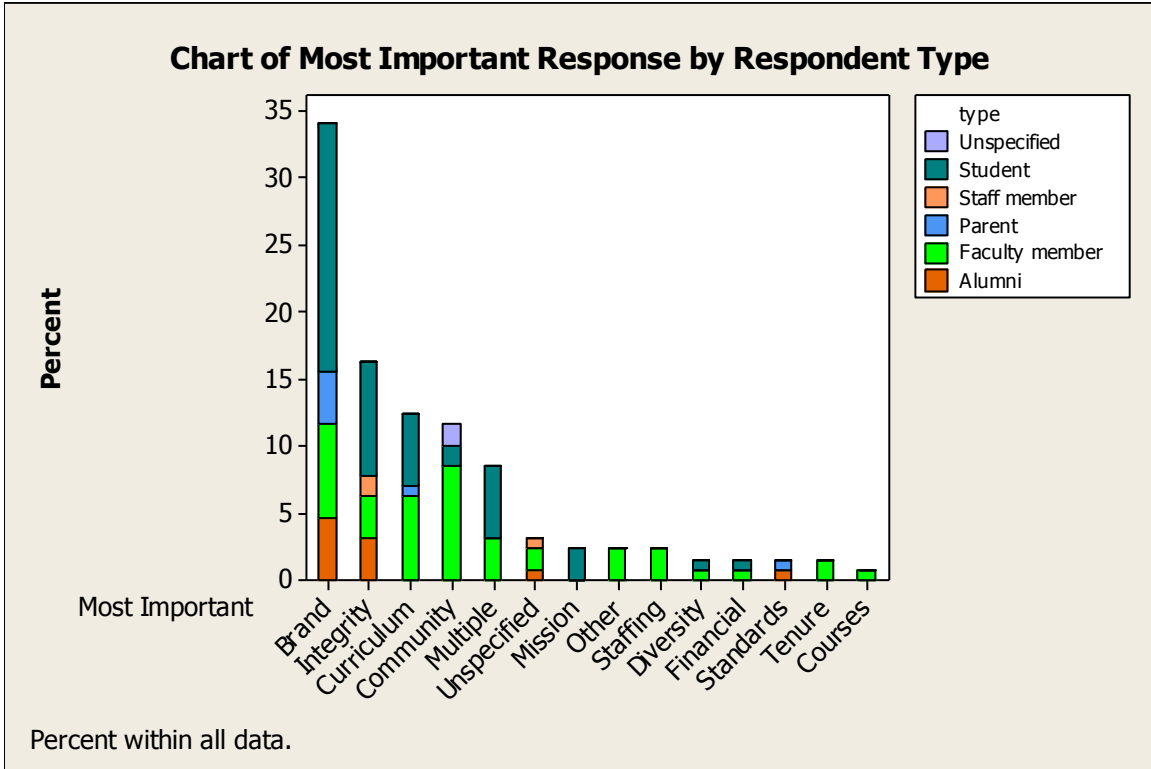

Chart 4: Percentage of People Who Listed a Given Reason

Summary: A variable was added to indicate whether the specific choice was listed at all (in their top 5 list) by the person. The y-axis represents the percent of people who listed it at all (with any ranking). About 75% listed curriculum, 75% brand, 60% community, 55% integrity, 52% standards, 35% courses, and the rest were about 25% or less. Some respondents in the “other” category discussed intellectual property, despite it not being a category suggested on the feedback form.

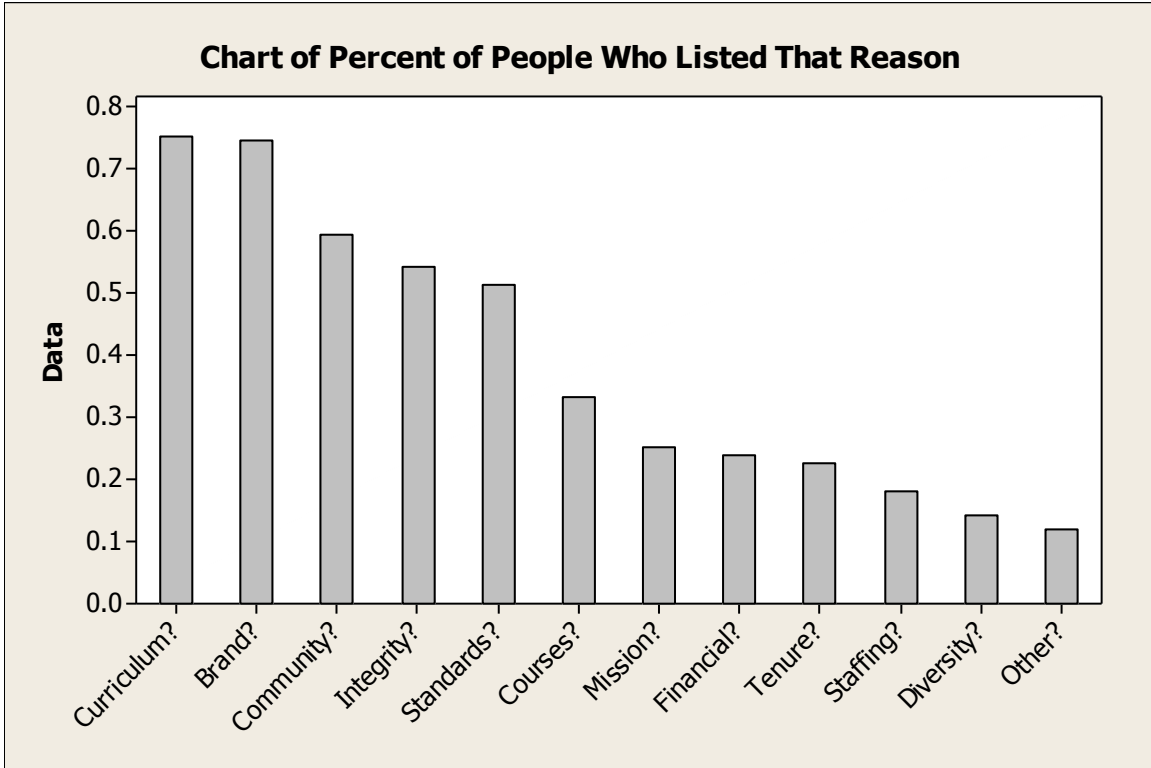

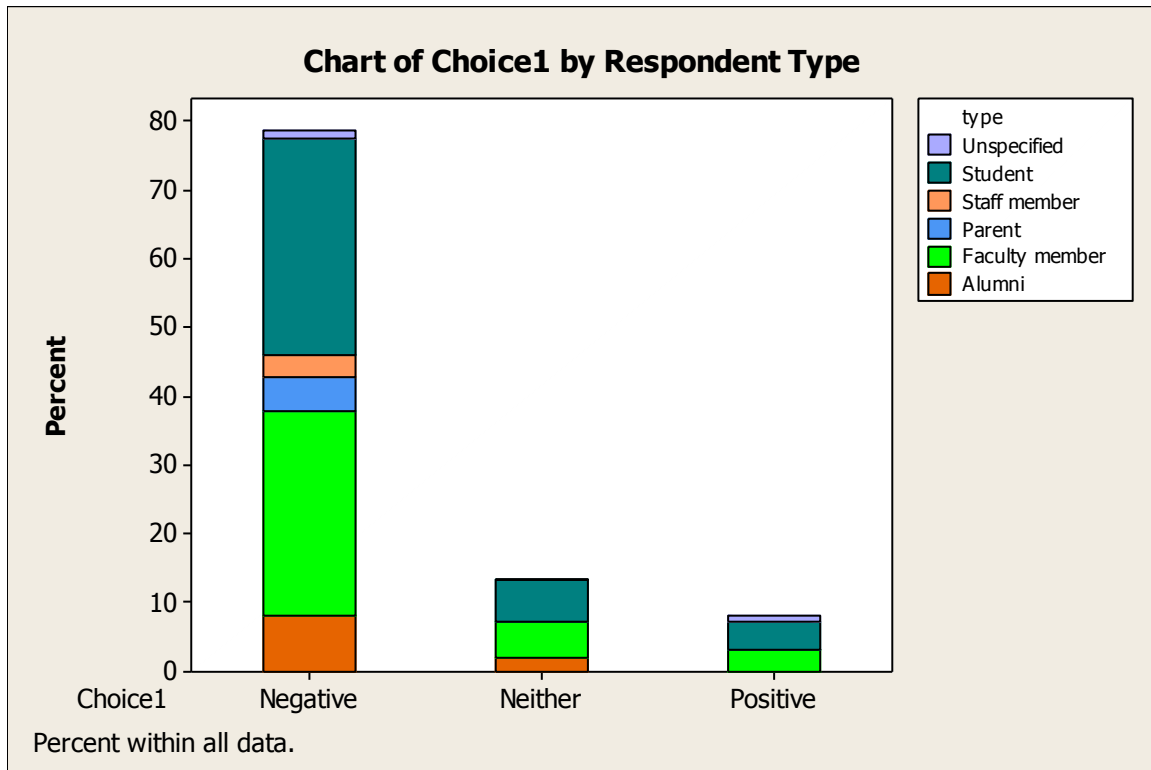

Chart 5: Whether Comments were Positive or Negative

Summary: The Faculty Congress Executive Committee coded whether written comments included in the feedback responses were generally positive or negative. Two FCEC members scored each response, individually of each other, and their results were compared and checked by the remaining FCEC members for accuracy. Almost 80% were of the comments were negative and less than 10% were positive. In addition, all the staff and parents found only negative, and none of the alumni said anything positive.

A word on the data

A total of 156 people responded: 14 alumni, 65 faculty, 7 parents, 62 students, 4 staff members, and 4 people respondents who did not self-identify. The Faculty Congress contacted all faculty colleagues by e-mail and invited them to participate, but the Congress has no mechanism at its disposal for contacting the other constituencies.

Respectfully prepared by the Faculty Congress Executive Committee
with assistance from Dr. Michael Posner, Associate Professor of Statistics
